## Section 1.0 – Introduction

The Hibernia Field is located on the northeastern Grand Banks, approximately 315 km south-southeast of St. John's, Newfoundland and Labrador. The Field was discovered in 1979 by Chevron et al. when they drilled the Hibernia P-15 well.

On September 15, 1985, Mobil, on behalf of the Hibernia co-venturers, filed the Hibernia Benefits Plan and Hibernia Development Plan with the Federal and Provincial governments. The Hibernia Benefits Plan was approved by the C-NLOPB in June 1986. The Plan covers all phases of the Hibernia project from project development to abandonment. An Amendment was submitted in February 2010 and subsequently approved in September 2010 to address the Hibernia Southern Extension. This was the first amendment to Hibernia's Benefits Plan since the original was approved by the Board in Decision 86.01.

Several key principles of the Plan include:

- the provision for a local office where appropriate levels of decision-making are to take place;
- the requirement for full, fair and timely opportunities for Newfoundland and Canadian industry to participate in the supply of goods and services on a competitive basis;
- utilizing, to the extent practical and cost effective, the principle of first consideration to Newfoundlanders and Labradorians and Canadians in procurement, contracting and employment policies for the project including the construction, development and operating phases;
- engineering and construction work that can be performed in Newfoundland and Labrador shall be performed in Newfoundland and Labrador;
- establishment of a Gender Equity and Diversity Program; and
- expenditures shall be made for research and development to be carried out in the province and for education and training to be provided in the province.

Hibernia's commitments are monitored by the Canada-Newfoundland and Labrador Offshore Petroleum Board on a quarterly and annual basis.

## Section 2.0 – Employment

As of March 31, 2016, a total of 2099 people were employed on Hibernia's operations, this includes the Hibernia Southern Extension (HSE) project, and 1104 were located offshore. This includes people employed with Hibernia and its contractors, of this 1808 or 86.1% were residents of Newfoundland and Labrador when hired, while another 188 or 8.9% were residents of other regions of Canada at the time of hire. All of these positions were located in Newfoundland and Labrador as of March 31, 2016. The number of females employed on Hibernia operations was 286 or approximately 13.6 % of the total workforce.
