

## Hibernia resumes production

**Date: September 27, 2019**

St. John's, Newfoundland and Labrador - Hibernia Management and Development Company Ltd. (HMDC) has resumed production today at the Hibernia platform, located approximately 315 kilometres offshore the east coast of Newfoundland.

HMDC brought production online following a comprehensive review of its systems and operations and discussions with the regulator, the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB).

HMDC's focus remains on safety and protection of the environment.
