

Sheen observed at Hibernia platform

Date: July 17, 2019

Time: 11:00 a.m. (Newfoundland time)

St. John's, Newfoundland: Hibernia Management and Development Company Ltd. (HMDC) confirms that a sheen has been observed on the water near the Hibernia oil production platform, located 315 kilometres east south east of St. John's, Newfoundland.

All platform personnel are safe. An investigation is being conducted to determine the cause of the sheen. A standby vessel is in the area providing mechanical dispersion of the sheen.

HMDC has notified the Canada- Newfoundland and Labrador Offshore Petroleum Board.

More information will be released when it becomes available.
